

Players withdraw money

(Only for “Central Wallet [Platform Request Merchant]” merchants)

* Domain name/v1/free/withdraw

* This interface is generally used to call players when they withdraw money from the merchant website or when the merchant deducts the player. This interface will deduct the balance of the game platform and the central wallet balance.

* Note: Kaiyuan chess and cards can only be transferred after the game is over

* Please update the amount when players withdraw money. The decimal point is not supported. When requesting the interface, be sure to set the request timeout time for more than 30 seconds.

* Request parameters:

Field name	type	length	Must-choose	illustrate
username	string	5-16	yes	Member name, no prefix required
sign_key	string	32	yes	Encrypted signature
money	int	10	yes	Transfer amount (only positive integers are supported, not decimals are supported)
client_transfer_id	string	64	yes	The order number of conversion quota cannot exceed 64 digits
code	string	32	yes	md5(sign_key+api_account+username+money+client_transfer_id)

* Response parameters

Field name	type	illustrate
statusCode	string	Whether it is successful. 01:Success; Other failures;
message	string	Information corresponding to code
data	string	Balance

* Return data content

{

```
"statusCode": "01",  
"data": "100.25",
```

```
"message": "Success" }
```
